CURRICULUM VITAE

ALEKSANDRA DRECUN, PSY.D.

LICENSED CLINICAL PSYCHOLOGIST

PSY 21778

A highly enthusiastic, motivated and self-directed licensed clinical psychologist with a wealth of teaching and clinical experience seeks employment opportunities in a challenging and rewarding setting that is multi-culturally diverse, equitable and inclusive, where one can provide psychological services that include clinical assessments, psychological evaluations and psychological treatment. Previous responsibilities include teaching at the undergraduate and graduate level; consulting on cases; co-supervision and training practicum and intern students for purposes of ascertaining diagnostic impressions and providing treatment; conducting research presentations; program development; community outreach activities; imparting psychological services; conducting psychological evaluations and reports for purposes of diagnostic impressions and the development and maintenance of treatment plans.

Summary of Qualifications

- Twenty-two years of substantial experience providing superior psychological services to a multi-culturally and diverse populations that includes children, adolescents, adults, couples, and families in individual, family and group therapy modalities.
- Superior ability to maintain emotional stability to help clients' cope with human suffering, social-political concerns, emergencies, and other stressors.
- In-depth knowledge of crisis intervention techniques.
- Exceptional ability to work collaboratively within multidisciplinary teams, service users, staff and other professionals in a high-intensity environment.
- Outstanding interviewing (intake) and psychological/developmental evaluation skills particularly with respect to diagnostic impressions and evaluations with knowledge of potential biases in assessment instruments and use procedures and interpret findings by keeping in mind cultural and linguistic characteristics of the clients.
- Notable ability to use independent judgment and to manage and impart confidential information.
- Excellent ability to effectively communicate orally and in writing medical information, test results, diagnoses and proposed treatment in a manner easily understood by the client and other professionals.
- Excellent skill in writing psychological evaluations and preparing and maintaining patient records.
- Unquestionable ability to observe, assess, and record symptoms, reactions, and progress.
- Incomparable ability to assess mental status in clients and to develop individual treatment goals and plans.
- Sound knowledge of individual program planning, ability to evaluate the progress of therapeutic program and to make individual modifications.

- Extensive experience and demonstrated excellence in teaching psychology courses that incorporate diversity, equity and inclusion at the undergraduate and graduate level as indicated by student and peer evaluations.
- Effective at providing instruction to students of diverse academic, socioeconomic, multi-cultural, intersecting identities, various support needs, and ethnic backgrounds.
- Uncommon knowledge of and ability to apply relevant current education methodologies, accommodations and techniques.
- Excellent classroom management skills.
- Outstanding oral and written communication skills that incorporate culturally humility and a variety of helpful verbal and non-verbal sending and receiving messages accurately and appropriately.
- Adept at and appropriate use of technology in the classroom (i.e., computers, multimedia projectors and teaching platforms).
- Solid understanding of and remarkable ability to respond to the psychological and academic needs of the diverse and multi-cultural college population.
- Proficient in time management skills, organizational skills, problem solving, decision making, coordinating with instructors, staff and students, providing appropriate referrals, recommending services and working with family and support services to assist client/students.
- Remarkable ability to provide appropriate referrals and recommend support services to assist students.
- Profound sensitivity to and understanding of the college populations' diverse abilities, interests and multi-cultural backgrounds.
- Supportive of diverse and multicultural viewpoints among the student population, staff and faculty.
- Strong organizational skills, attention to detail, and flexible.
